	Summary	This site is located beyond the development boundary of Wyre Piddle. Therefore for the purposes of considering the suitability of the site meeting its housing needs it is considered to be too far removed and would usually rule the site out with respect to a SWDPR housing allocation. However for some sites near Wyre Piddle it would be premature to rule them out until the provisional allocation boundaries for the strategic growth locations have been determined. For sites that do ultimately fall within the strategic allocation boundaries the proposed land use(s) will not be confirmed until the associated master planning work has been concluded.
