Subject: Re: Regulation 16.....Broadway

Dear Sir/Madam,

I should like to point out the following:

Having moved to Broadway back in the 1970s' as a resident and working member of the village community, I should like to offer my thanks to those that have taken part in the set-up of The Broadway Neighbourhood Plan Steering Group.

I understand that we have now reached a stage, namely Regulation 16 in which yourselves take control to consider what has been submitted in the past regarding the village concerns which will eventually involve a second referendum. Once reached this will become an important planning document which will affect all future planning applications etc.

I would therefore like to confirm that I support all polices that have and will in the future be put forward by The Broadway Neighbourhood Steering Group, knowing that it will be for the good of Broadway residents.

Just two of the most important points at this stage is that this Group and ourselves who live in and around Broadway will want to achieve is:

- a) The protection of environmental dealings especially on the natural basis.
- b) Important to note that Broadway is in need of more affordable homes enabling local future generations to remain in and around the area.

Yours faithfully,

A.C. Goodenough
