Subject: Kennel Lane plans

To who this may concern

- > 1. The housing allocation for Broadway through to 2040 is already satisfied. Allocating up to 30 new homes on the Kennel Lane site is not required and neither the Parish Council nor the District Council have produced any evidence to suggest otherwise.
>
- > 2. The description in the draft Plan of Kennel Lane as a brownfield site is incorrect. It is an area in active commercial use. Without the parking on the Kennel Lane site for those who work on the High Street and elsewhere there would be further pressure on other car parks and on those streets which permit all day parking (the Sands has had particular problems already).
- 3. Also problems on Snowhill Road in front of our cottages, blocking our views across beautiful open countryside, causing a beautiful grass verges to get driven on ,this will only make it five times worse. If the residence of Broadway do not make stance on these plans we will lose Broadway forever!!!
With no gain.

Ian Sanders
