My Comments below apply equally to Policies H1,C1 H2, H6, H7, H10 and H11 (apologies if I was supposed to submit separate forms, but that seemed rather wasteful if I was going to say the same thing for each area)

Please use the space below to make comments on this part of the Neighbourhood Plan.

There is an overwhelming bias for the older demographic in the plan, prioritising downsizing and retirement homes above all else, as a result there is not enough provision for younger generations and young families like me! There is a suggestion that young families want houses vacated by the elderly downsizing which is not supported by evidence. These houses which are too big and expensive for the elderly will also be too big and expensive for families, especially if you factor in renovation costs! There has not been enough consultation and evidence gathering for the views of anyone under 65, especially those under 30! It seems that exclusive development rights have been given to one individual at the expense of the rest of the village! The plans own evidence does not support large developments, with infill housing being the preferred development method from evidence collected! Mitigations for proposed large developments are not suitable. Lack of community spaces not currently a concern, the Village doesn't need new green spaces that will be underutilised or used by those outside the village as a carpark. Better to maximise existing green spaces. The concerns I've submitted here I've raised previously in previous consultations but no-one on the SG wants to listen.

Please use a separate form for each representation.

Please state whether you would like to be notified of the Council's decision on the Neighbourhood Plan proposal:
