Policy IH5 Designated Development site

Please use the space below to make comments on this part of the Neighbourhood Plan.

<p>I live at [REDACTED] and like many villagers provided feedback on the neighbourhood plan earlier this year during the first consultation phase – feedback which seems to have been completely ignored. I object to the proposal to make changes to the development boundary as determined by the SWDP in order to allow development on a site which is currently outside of the development area.</p> <p>Changing the DB from that determined by the SWDP will obviously allow more development. Once a precedent has been set for moving the development boundary, arguments against further development on the site that Gladman proposed will be considerably weakened.</p> <p>Furthermore, the adoption of the site for development will necessitate the building of an access road. The proposal is for a road to be built more or less exactly where it was proposed in the original Gladman application. This, very obviously, will allow access to the larger site on which development was originally proposed.</p>

Please use a separate form for each representation.

Please state whether you would like to be notified of the Council’s decision on the Neighbourhood Plan proposal:
