## Back at Sea!

We made a welcomed stop back at the Evesham Sea Cadets and had over twenty juniors attending the session; the parade around the bus was also very impressive!

We will be back supporting the club in the autumn as we get such a great response from the members.

## Here to Help You – Spreading the Word

As part of our aim to provide more support and advice to young people our new leaflet 'Here to Help You' has been very positively received. A local charitable organisation, Young Solutions Worcestershire, have even featured an article about the leaflet and Charlie's work here on the Bus on their website.

## WHITTINGTON SUMMER FAYRE

In June we took the Bus along to **Whittington Primary School's Summer Fayre**. Thank you to **Gary, the school's Head Teacher**, for inviting us along – it was a **great afternoon** and we managed to capture a photo of the fun before the heavy downpour of rain!

Comments from families were really positive as they loved the youth bus. **We look forward to future activities with the school**, including talks of a possible **open-air cinema event with the youth bus** taking centre stage for the local community... so watch this space.

**On the Case at the Droitwich Showcase!**  
We were back at Droitwich High School for the annual showcase event and enjoying chatting to young people and parents about what we do. A big thanks to the Droitwich Young Peoples Action Group for co-ordinating the event.

We had new enquiries about the bus for areas such as Ombersley so we have plans to get the bus there at the end of the summer.

Remember we will always try out new areas if we can get enough initial support from young people, parishes or residents.

## 'Family Links' – A really useful resource for parents

**Family Links** is a national charity dedicated to empowering children, young people, families and schools to be emotionally healthy.

The website has a whole section devoted to providing **information for parents** including a tonne of free downloads, a list of useful contacts that provide help and support, details of local parenting groups and much, much more!
