* Please note for 2012/13 onwards Wychavon are classing the Windfalls as per the NPPF, March 2012. Wychavon class windfalls as any site that is not an allocated site, previously allocated or SHLAA site (irrespective of the previous use of land i.e. Greenfield, Garden Land, Other Brownfield, Former Employment and Former Residential).

Wychavon Small (1-9) Windfalls:

Year	Small Windfalls Completions
2006/07	124
2007/08	86
2008/09	83
2009/10	53
2010/11	67
2011/12	78
2012/13	86
2013/14	89
2014/15	116
2015/16	108
2016/17	133
Total	1023
Average	93

Based on completions the average small windfalls from 2006 to 2017 is 93 per annum. Wychavon are using the figure of **82 per annum** as a conservative estimate as this is the figure agreed by the Inspector of the adopted South Worcestershire Development Plan. Only 2 years of windfalls are accounted for in the five year land supply to avoid any duplication with sites already granted permission and those that will not have sufficient time to be completed after granting permission during the last of the five years.

Tables for each year containing all of the sites that are included in the above numbers are provided overleaf.
