

Harvington Submitted Neighbourhood Plan Consultation

RESPONSE FORM

Under Regulation 15 of the Neighbourhood Planning (General) Regulations 2012, Harvington Parish Council has submitted its Neighbourhood Plan to Wychavon District Council. In accordance with Regulation 16, Wychavon District Council would like to invite comments from individuals and organisations on the submitted Neighbourhood Plan.

This consultation runs from 9am Wednesday 24 October to 5pm Wednesday 5 December 2018.

All comments will be made publicly available and identifiable by name and organisation (where applicable). The personal information you provide on this form will be held and processed in accordance with the requirements of Data Protection Legislation. More information on how we will hold your data can be found at:

<https://www.wychavon.gov.uk/privacy-policy>

Please fill in your details in the boxes below:

Full Name:

Kay Hughes

Organisation (if applicable):

Herefordshire and Worcestershire Earth Heritage Trust

Address (including postcode):

████████████████████
████████████████████
████████████████
██████████
██████████

Telephone number:

██████████

Email address:

██████████████████

Please state which part of the Neighbourhood Plan (i.e. which section, objective or policy) your representation refers to (please use a separate form for each representation):

Policy 4.2: Environment and heritage

Please use the space below to make comments on this part of the Neighbourhood Plan.

The Herefordshire and Worcestershire Earth Heritage Trust is a charity that aims to record, protect and promote geology and landscape in the two counties. We identify sites of geological interest and advise the County Councils on any plans that may impinge upon them.

There are no known Sites of Geological Interest within the Harvington Neighbourhood Area, and hence we are happy with the planning proposals.

The geology of the area however is quite diverse: the bedrock in the eastern part consists of early Triassic, Mercia Mudstone, while that in the West is late Triassic to Jurassic Blue Lias and Charmouth Mudstone. The fault where this change occurs runs right through the village. Further, the action of the Avon River in more recent times has alternately cut through the bedrock and deposited a series of three different river terraces within the area of the plan.

The Trust is always interested to learn more about the geology of the two counties and temporary excavations created by building work can give us the opportunity to do that. As there are virtually no accessible rock exposures in the Vale of Evesham currently, we would be very interested in investigating any that might arise as a result of work in the Harvington Area.

We could also work with local people to produce some graphical images of the geology of Harvington and to see what links we can make between topography, soils and the geology, if that is of interest.

Please use a separate form for each representation.

Please state whether you would like to be notified of the Council's decision on the Neighbourhood Plan proposal:

Yes

No

Please email this form to policy.plans@wychavon.gov.uk or post it to Planning Policy, Wychavon District Council, Civic Centre, Queen Elizabeth Drive, Pershore, WR10 1PT.
