Thank you for the opportunity to comment on your consultation. We have previously responded to Neighbourhood Plan consultation in November 2018. We completed a desk top review of the 3 proposed development sites and at this stage expect a low impact on the sewerage network.

We would encourage you to include a statement for both policies which promotes the use of sustainable urban drainage (SuDS) and discharging surface water via infiltration or watercourse as per the Drainage Hierarchy. If not possible connection to the surface water sewer should be available. No connection of surface water into the foul sewers should be permitted unless all other alternatives are proven not to be available.

Please use a separate form for each representation.

Please state whether you would like to be notified of the Council's decision on the Neighbourhood Plan proposal:
